Here are my comments. Honestly, no major issues. I'm pleased with the additions and the inclusion of the EJ Element language.

pg 8: the new Public Review Period contains repeated sentences in para 2 and 3.

Throughout, I appreciate the reference to the Communication and Engagement Plan

Table 73 (pg 165) is helpful.

Appendix A map is really different from the original. I assume the update is reflected in Appendix B. (I remember the original was missing sites 30-44, which apparently don't exist)

Thanks so much for all your work!

Best,
Ann
