- No appliances including stoves, refrigerators, washers/dryers, vacuums, toasters, coffeemaker
- No TV's in consoles or TV's over 36" (flatscreens are accepted)
- No treated wood waste or contaminated soil

Questions? Call (888) 412-9277 or visit www.RecycleMore.com

If you cannot make the event, you can take your waste to our permanent HHW Facility at 101 Pittsburg Ave. in Richmond (Wed-Sat 9am-4pm). Please see the attached flyer for additional information.

- **COMMUNITY SERVICE DAY JUNE 2ND 8:00 AM – 12:00 PM**

Join the Community Service Commission as they host Community Service Day. This is an opportunity to make our community beautiful by volunteering on service projects. These projects will clean, brighten and prune public spaces, community resources, and schools. If you would like to volunteer, please email recreation@ci.pinole.ca.us or call 510-724-9062. Please see the attached flyer for additional information.

- **CAR SHOW RETURNS JUNE 24TH**

The classic car show will return to downtown Pinole on June 24th. There are new organizers and sponsors, who have opened the show to both American and foreign car models. Mark your calendar and join us for a fun day in the sun – and while you're downtown, visit one of our many restaurants and businesses! For more information please call Megan at 510-283-5757.

ITEMS OF INTEREST

- **KEEPING PINOLE SAFE, ONE LIFE AT A TIME**

Over the past few months our Pinole Firefighters have been hard at work saving lives! Within the last 60 days we had 5 CPR saves, meaning we responded to 5 different 9-1-1 calls for medical emergencies where the patients were not breathing/did not have pulses present. Using emergency medical training, performing CPR, and administering medications, each patient was transported to hospitals breathing on their own and with their heart beating again. Great job!

CONSTRUCTION MANAGER'S CORNER

With over 175 workers onsite daily working on all five buildings, it's impossible to cover every activity underway on campus. Work is progressing with interior wall framing, electrical rough-in, and mechanical and plumbing piping installation in the Classroom, Gymnasium, and Performing Arts buildings. The exterior work is progressing with brick veneer placement, window and storefront installation, metal roofing placement, and porcelain tiling beginning next month.

UPCOMING CONSTRUCTION ACTIVITIES

- Concrete pours for lunch shelter footings and retaining walls
- Dug footings for retaining walls and lunch shelter
- Began brick veneer on Classroom building
- Doors and windows in Classroom and Gym buildings
- Roofing on Performing Arts, Classroom, and Gym buildings
- Framing walls in Classroom and Performing Arts buildings
- Install electrical conduit, plumbing piping, and mechanical ducts overhead and in walls of Classroom, Gymnasium, and Performing Arts buildings
- Stair concrete pours in Performing Arts and Classroom buildings

WORK COMPLETED THIS MONTH

- Dug footing for retaining walls and lunch shelter
- Began brick veneer on Classroom building
- Windows and storefronts in Classroom and Gymnasium
- Roofing on Performing Arts, Classroom, and Gym buildings
- Framing walls in Classroom and Performing Arts buildings
- Installation of electrical conduit, plumbing piping, and mechanical ducts overhead and in walls of Classroom, Gymnasium, and Performing Arts buildings
- Concrete pours for seating decks and stairs in the Theater

MONITORING AND STATISTICS

Storm Water Pollution Prevention Program in place with Specialist onsite weekly for monitoring.

POTENTIAL IMPACT TO NEIGHBORS

Impacts this coming month will be similar to what occurred last month. They will include the following:

- Noise
- Increased Truck Traffic
- Crane onsite
- Potential work on Pinole Valley Road

Classroom Building Brick Veneer and Storefront Windows Installed

Concrete Pour of Framed Seating Decks on Theater Balcony

Inez Ayerra (510) 502-1850

WANTED!

COMMUNITY MEMBERS TO JOIN YOUR PINOLE POLICE DEPARTMENT AS A MEMBER OF THE PINOLE POSSE VOLUNTEER PATROL TEAM.

- **BECOME AN AUXILLARY MEMBER OF THE PINOLE POLICE DEPARTMENT.**
- **BE THOSE CRUCIAL ADDITIONAL EYES AND EARS AS YOU PATROL OUR COMMUNITY.**
- **UNIFORMS AND PINOLE POLICE DEPARTMENT POSSE PATROL VEHICLE PROVIDED.**

**FOR ADDITIONAL INFORMATION OR APPLICATION,
PLEASE CONTACT OUR CRIME PREVENTION UNIT AT
(510) 914-1202**

Association of Bay Area Governments

HayWired Earthquake Scenario Released on April 18th

New Resources Available to Assist In Building Bay Area Community and Business Resilience

The U.S. Geological Survey (USGS) and its many partners, including the Association of Bay Area Governments (ABAG) and the Metropolitan Transportation Commission (MTC), unveiled a new scenario and public outreach campaign to showcase what could happen during a major earthquake in the San Francisco Bay area along the Hayward Fault and help the public to prepare for and recover from an earthquake. The *HayWired Earthquake Scenario* is intended to building awareness of earthquake risk. The campaign is to help Bay Area residents understand what they can do to mitigate the impact of an earthquake, and how to bounce back once the shaking stops. The public-engagement campaign — *Outsmart Disaster* — offers many resources, including a new fact sheet, on-line at outsmartdisaster.com.

“ABAG is pleased to have worked with USGS and the other partners to develop the Haywired Scenario. Being able to share the potential impacts, before it happens, can help our cities, towns and counties to be better prepared. Bay Area residents now have access to the latest science in their efforts to become even better prepared,” said

Supervisor David Rabbitt, ABAG President and California Seismic Safety Commissioner.

ABAG Resilience Program

The ABAG Resilience Program has been focused on developing resources for Bay Area residents and jurisdictions for over 40 years. The agency has a number of key resources to help jurisdictions address earthquake risks, available on the [Resilience website](http://resilience.abag.org). The Joint ABAG/Metropolitan Transportation Commission Integrated Regional Planning Program is a HayWired Project Partner. Agency staff researched the economic impact of the scenario, and also have shared early lessons at meetings of Bay Area cities.

“As the Executive Director of MTC-ABAG, I am pleased to commit that we will continue the Resilience Program’s work, such as participating in HayWired’s development,” commented Steve Heminger, MTC-ABAG Executive Director. Heminger added, “We will continue to support the region in preparing for the next big earthquake. We will continue to strengthen local, regional, state, and federal partnerships to bring more resources to the region to expand resilience actions. The regional agencies are here to support action by Bay Area communities.”

What is the HayWired Scenario? And Why?

The HayWired Scenario is a highly detailed and scientifically realistic depiction of what may happen during and after a magnitude 7.0 earthquake on the Hayward Fault with an epicenter in Oakland. Understanding the risk and getting ready for a large earthquake on the Hayward Fault like the one depicted in this scenario can help at-risk communities prepare for similar events that are possible in their area.

Without good communications, emergency-response will be hampered and life-saving response functions can be compromised. “HayWired” was chosen for the scenario to emphasize the need to examine our interconnectedness and reliance on telecommunications and other lifelines such as water and electricity.

HayWired Earthquake Scenario

The newly released [USGS Fact Sheet](http://usgs.gov/factsheet), “[The HayWired Earthquake Scenario – We Can Outsmart Disaster](http://usgs.gov/factsheet),” provides a concise overview of what will be a multi-volume report. The Fact Sheet distills key points of the report and provides the first glimpse of a truly groundbreaking study into earthquake hazard impacts, mitigation efforts, and resiliency actions for communities in and around the San Francisco Bay Area.

Without good communications, emergency-response efficiency is reduced, and as a result, life-saving response functions can be compromised. “HayWired” was chosen for the scenario to emphasize the need to examine our interconnectedness and reliance on telecommunications and other lifelines such as water and electricity.

ABAG encourages members to share the Outsmart Disaster website with their residents and local businesses - outsmartdisaster.com.
