

Plastic Wise
PINOLE

Alternatives to Single-use Plastics

EXPOSITION

WHEN: Thursday, April 6, 2023

WHERE: Drop in 9am-1pm

Pinole Youth Center (635 Tennent Ave.)

WHAT: At this free event see, touch, and test alternatives to single-use plastics! Explore new innovations and technologies in the compostable and reusable foodware space. Take our survey to help inform the next steps of this initiative.

WHY: The City of Pinole is exploring a transition away from the unsustainable use of single-use plastics. Single-use plastics pose a detriment to our health, pollute the beauty of our planet, flood our landfills, and rely on the unsustainable consumption of non-renewable, natural resources.
